
SDN ENGINEERING

Pvt Ltd – Undergoing Incorporation

Engineering Quality Delivering Performance

Who We Are

About Us :

We specialize in the production of high-quality, precision-engineered components used in industrial and consumer mechanical systems.

Mission :

Our mission is to consistently create value for our customers by delivering the highest-quality products and complete solutions, including fully finished parts.

Vision :

Our vision is to be a trusted industry leader in component and proto-part manufacturing, delivering excellence to our customers while driving sustainable growth for all stakeholders.

Opportunity :

Increased demand for reliable parts in growing markets and repair industries around the world.

Our Product Range

1. **Core Mechanical Components**

   Gear box, Fastning and all mechanical components

2. **Safety & Performance Parts**

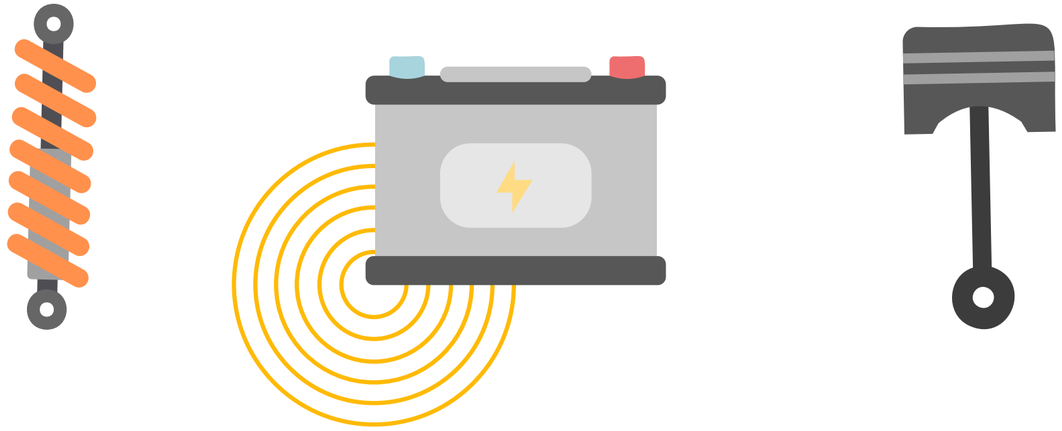
   Braking, suspension, or stabilization solutions.

3. **Electrical & Control Modules**

   Power management components like wind turbines and starter Motor parts

4. **Custom Upgrades**

   Precision-built enhancements for performance-focused applications.



Our Product Range

HEX BOLT

BUSH

HEX NUT

SLOTTED NUT

ASHOK LEYLAND

Defence Gear Components

TROLLEY RING

TROLLEY LOCKING GUIDE

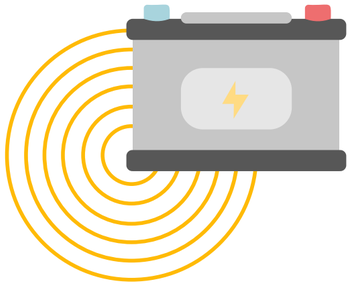
TROLLEY LOCKING ROD

TROLLEY LOCKING ROD

TROLLEY SOCKET HEX

Sécheron

Metro Train Control box Components



Our Product Range

TROLLEY SIDE GUIDE

SCREW ROD

TROLLEY SUPPORT MICROSWITCH

Sécheron

Metro Train Control box Components

PRE TENSIONER

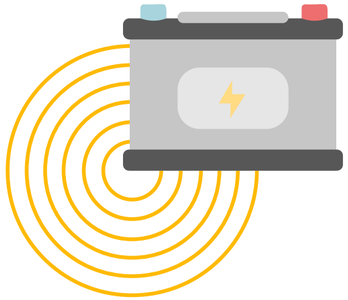
SPACER

SPACER SS

DOWEL

TVS Sundram Fasteners Limited

Caterpillar Components

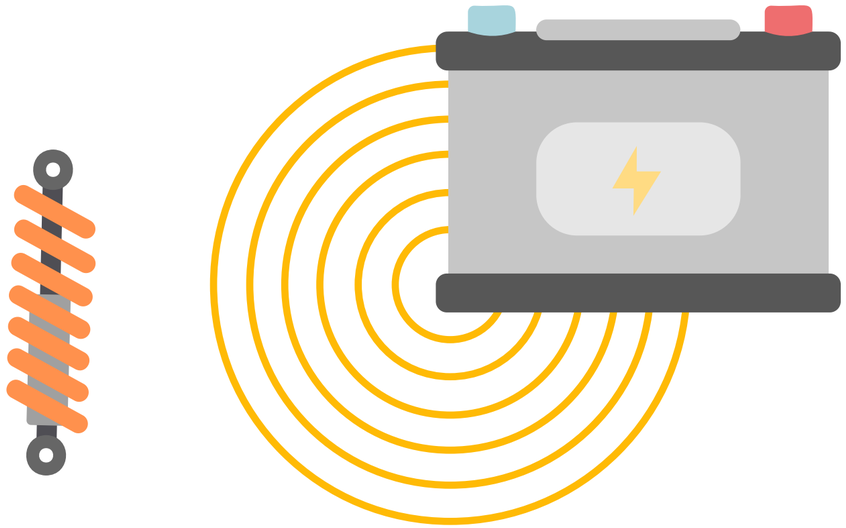


Our Product Range

Swtich Body

FASTENEX

Starter Mortor Components



What Sets Us Apart

Advanced Engineering

35+ CNC turning centres enabling high-volume, precision manufacturing.

Wide Machining Range:
CNC machining up to **Ø 500 × 1200 mm**, VMC capacity up to **800 × 500 × 500 mm**, CNC cutting up to **Ø 100 mm**, Bandsaw cutting up to **Ø 80 mm**

High-Strength Forming & Processing:
Screw Forging up to **400 Ton**, Power Press up to **200 Ton**, Thread Rolling up to **30 Ton**, Centreless Grinding up to Ø 150 mm

Reliable Technology:

Proven machines from **Jobber Elite, Lokesh, and Macpower.**

End-to-End Solutions:

From machining to **fully finished** components.

Who We Serve

ASHOK LEYLAND

LARSEN & TOUBRO

AVADI

Sundram Fasteners Limited

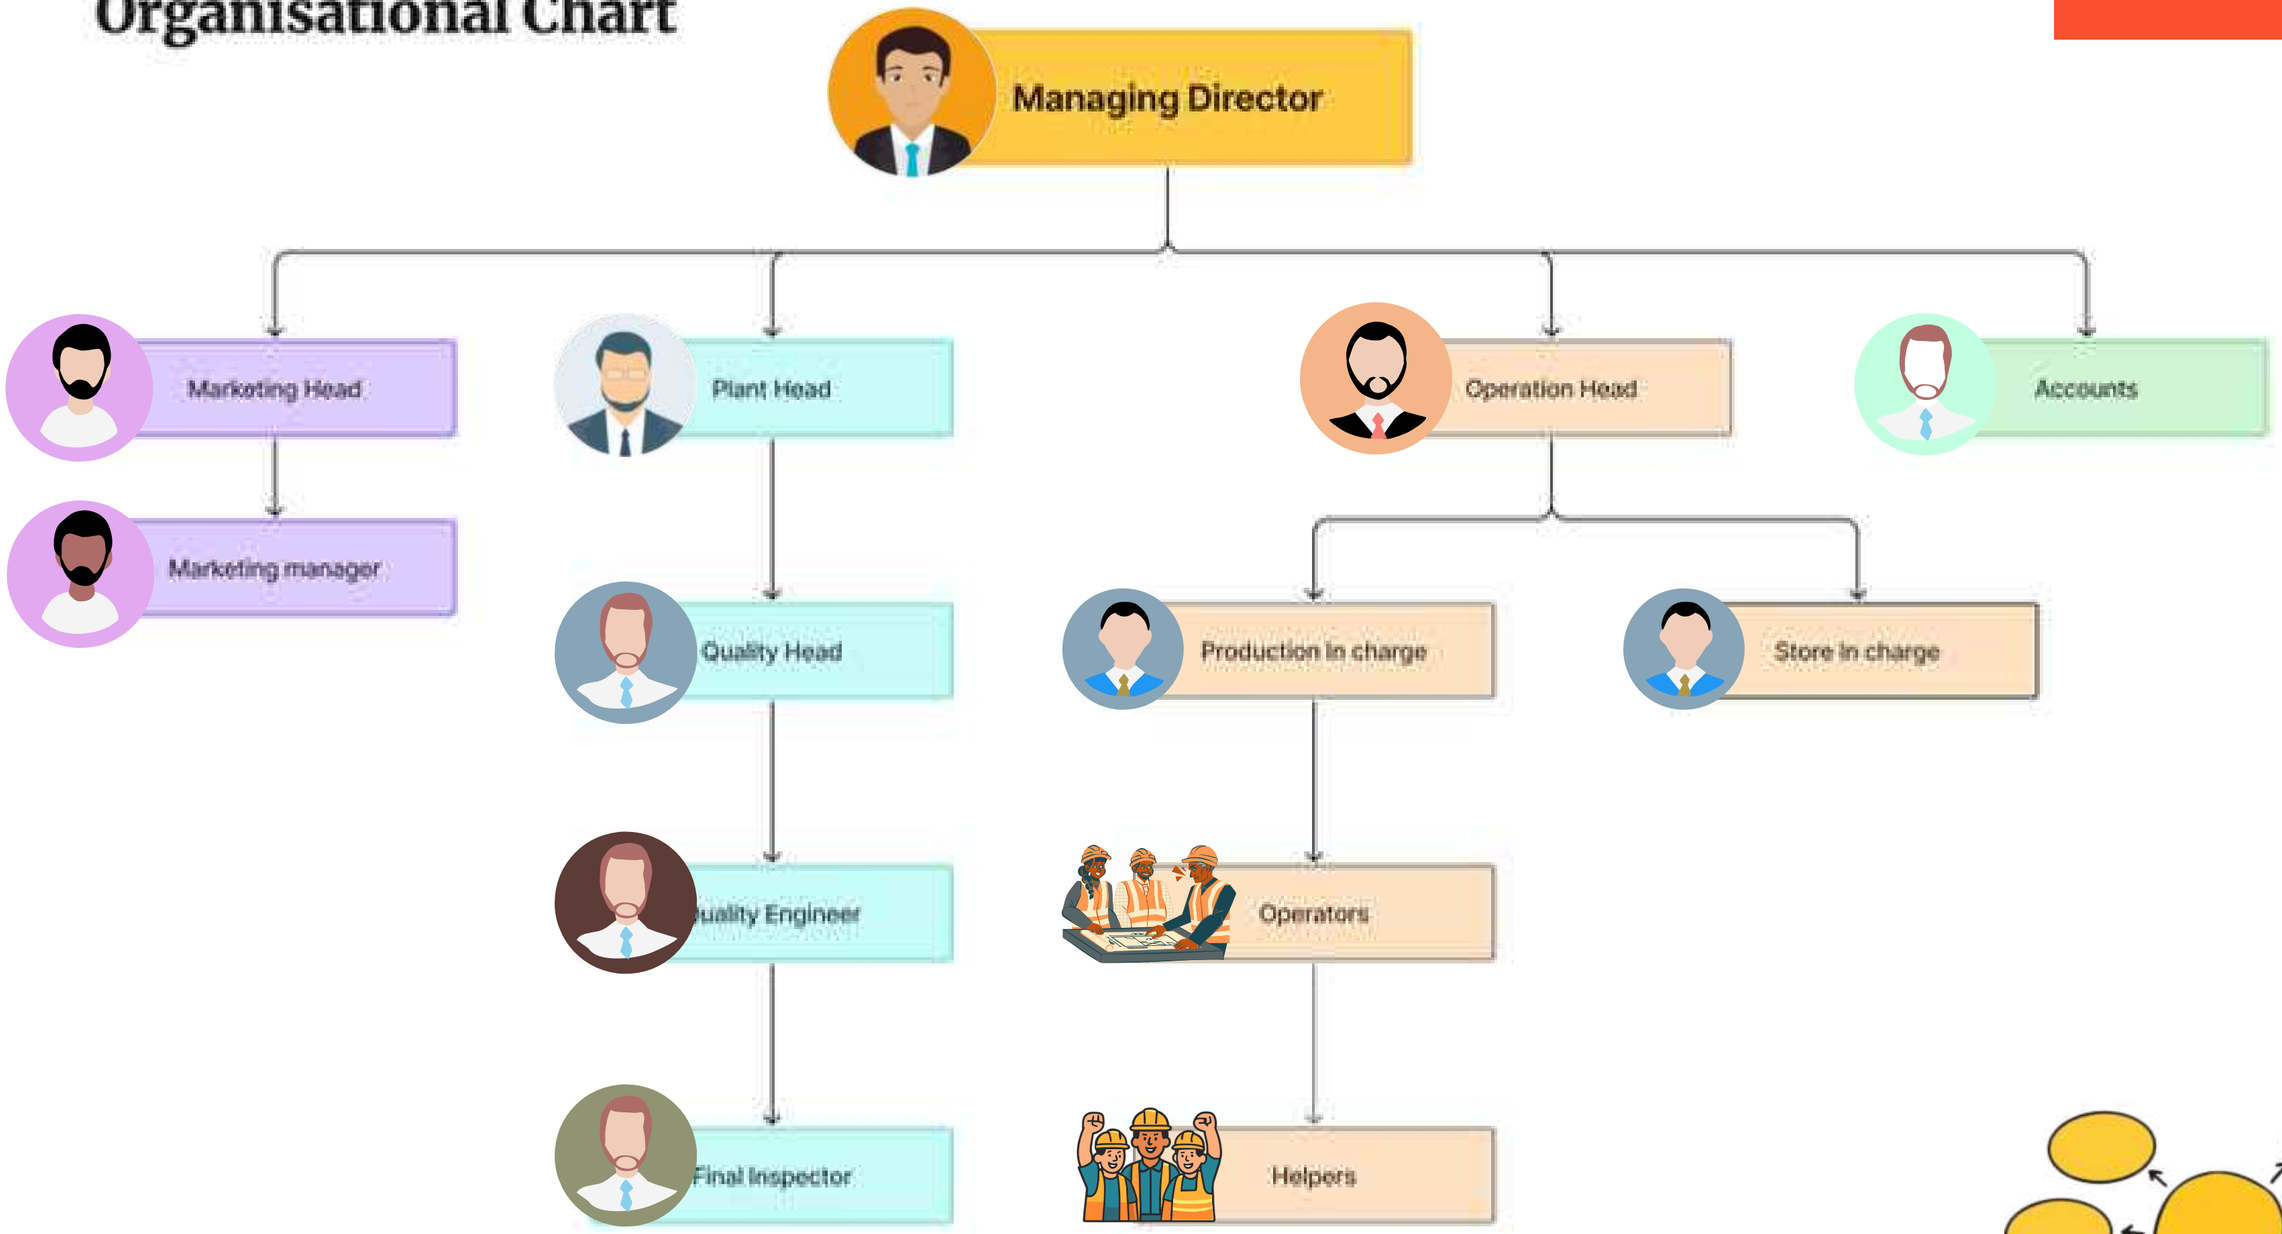
STANLEY Engineered Fastening

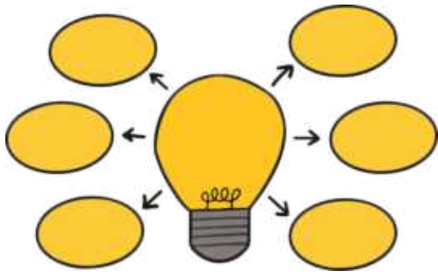
FASTENEX

Sécheron

TVS Sundaram-Clayton Limited

Organisational Chart





Our Revenue Streams

Business to Business Sales

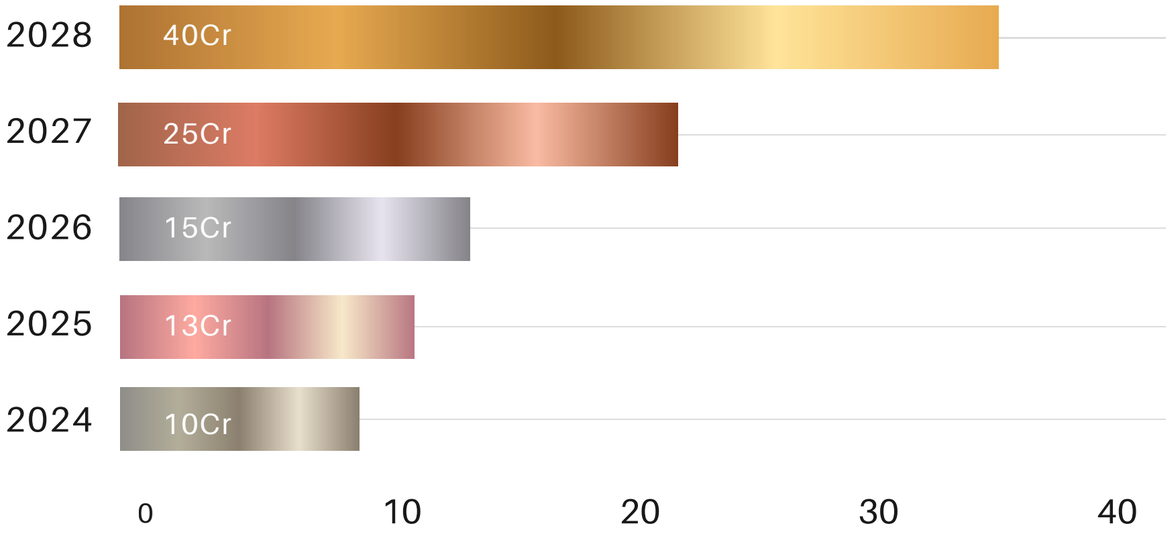
Direct sales to OEMs and industrial clients.

Wholesale & Distribution

Partnering with parts distributors and regional suppliers.

Custom Engineering

Made to order components for specialized needs.



MACHINE CAPACITY

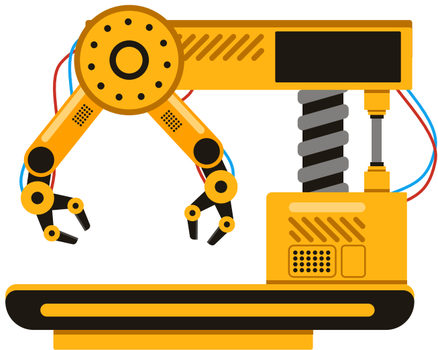
Machine	Make	Capacity	No's
CNC Turning Centre	Jobber Elite	270x200 mm	15
CNC Turning Centre	Lokesh-TL20N	275x325 mm	10
CNC Turning Centre	Lokesh-TL200	270x200 mm	8
CNC Turning Centre	Macpower	270x350 mm	5

MACHINE CAPACITY

Machine	Make	Capacity	No's
Vertical Machine Centre	Lokesh-VM-09 With 4th Axis	800x500x 500 mm	2

MACHINE CAPACITY

Machine	Make	Capacity	No's
Automation Robot Cell	Fanuc	25 Kg	2



MACHINE CAPACITY

Machine	Make	Capacity	No's
Thread Rolling	MTE	30 Ton	1
Thread Rolling	MTE	15 Ton	3

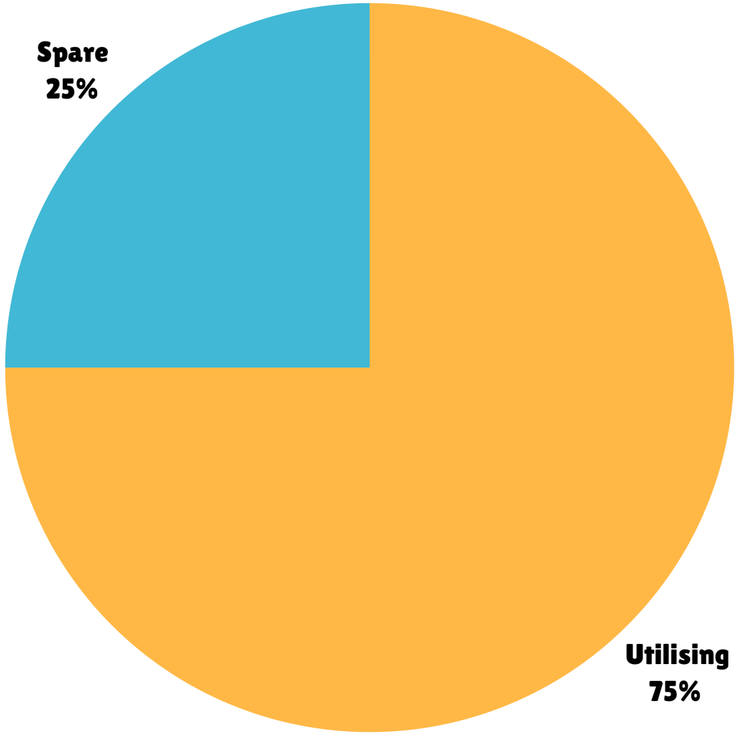
Machine	Make	Capacity	No's
Bandsaw Cutting Machine	Laxson	200 mm	1

MACHINE CAPACITY

Machine	Make	Capacity	No's
Drilling	ITCO	13 mm	1
Drilling	SEW	25 mm	1

Machine	Make	Capacity	No's
Tapping Machine	ITCO	20 mm	2

PLANT CAPACITY UTILIZATION



Utilising Capacity: 75%

Our manufacturing operations are currently running at optimal efficiency, ensuring consistent quality and on-time delivery.

Spare Capacity: 25%

Available capacity to accommodate new business, volume ramp-ups, and urgent requirements without impacting existing commitments.

CUSTOMER APPRECIATION
